

NC STATE UNIVERSITY

Office of Student Conduct

Education

Educating the community by publishing, distributing, and reviewing the Code of Student Conduct and by presenting information on the conduct system to members of this community

Accountability

Holding students and student groups accountable and challenging them to accept responsibility for their inappropriate behavior through a developmentally based process of conduct review and resolution

Leadership

Providing an opportunity for students to develop leadership and critical thinking skills in the context of a peer review process

Community

Protecting the interests and rights of students and the NC State community and meeting requirements for due process protections

We support the success of the whole student

Our primary goal is to educate students about the policies, rules and regulations that will impact their time here at NC State. We strive to help students gain greater insight into their decisions and behaviors in an effort to support a safe, respectful learning environment.

Be a responsible member of the Pack

Make your community your priority

1 REVIEW THE CODE

It is your responsibility to know and adhere to our Code of Student Conduct (POL 11.35.01). You should familiarize yourself with our Student Discipline Procedures (REG 11.35.02) as well.

2 ACT WITH INTEGRITY

Strive to do the right thing. Hold yourself, and your peers, to the highest standards of excellence, and act with integrity at all times.

3 RESPECT THE PACK

All are welcome here. Treat others in ways which allow them to be engaged and connected to campus. Consider how you can contribute to healthy relationships that foster an inclusive community and safe campus.

4 STRIVE FOR ACADEMIC EXCELLENCE

Academic integrity is one of the greatest expectations for your behavior at NC State. Honor the value of the degree you are earning and practice integrity in the classroom.

5 THINK BEFORE YOU DO

Managing complex situations and competing priorities can be difficult. Slow down and use critical thinking skills to weigh the risks and benefits of the decision you're about to make.

6 KNOW THAT WE CARE

Conduct isn't all we do. If you have questions or need resources, support, or assistance please contact us. If we can't help directly, we will connect you with a resource that can!
